

## Wood Wizard Adjustable Work Station Assembly Instructions

1. Place bottom piece on surface.

2. Insert support arms into slots on bottom piece so they angle away from you.

3. Insert middle piece and secure grooves under brass prongs.

4. Insert top piece and secure grooves under brass prongs.

5. Arrange computer, screens, keyboard as suits your comfort level. Work station can be used while sitting or standing, and middle and top pieces are interchangeable depending on which order works best for you. We hope you enjoy your handcrafted adjustable work station. We welcome feedback! Email Mike Nichols [Michael@woodwizardme.com](mailto:Michael@woodwizardme.com).
